

# Treasure Hunt

Here's treasure hunt to join us on! So do it before the loot is gone.  
It's very short, not too long, just find six things, you can't go wrong.  
Unless of course you tread on plants, for then we'll feed you to the ants!

Like a fish-bone in your hair, this one probably shouldn't be shared.  
But can you find it?  
It's hid where tasty things are grown each year, but to find it you will have to peer,  
Into the thicket.

Floating on the wind, a gift that's made of film and air within.  
But can you find it?  
It's not in what it soon will be, but in a bottle up a tree,  
Please don't climb it.

Do you need something to wear on skin? Then what you need is something thin.  
But can you find it?  
You do not need to use your licky, these things are already sticky  
Can you swing it?

Don't come to school unless you bring one, otherwise to home you'll run.  
But can you find it?  
These you will find in a tree, fruit like these are easy to see.  
That's the ticket.

Now follow your nose and lead the way, the directions toward the end of day.  
But can you find it?  
Open your eyeballs and find the same, these are lot's of fun for games.  
Not manual, it's automatic.

But you're not done until you find, one last treasure of a different kind.  
This is something brightly hung, filled with stuff that sticks to tongues.  
I believe it's found back in back, so face about face and join the race.

1. Comb
2. Bubble Solution
3. Stickers
4. Pencils
5. Rubber Balls
6. Pinata
