The business of the meeting was to advise with the President concerning ways and means of reducing expenses during the next biennium. It was agreed that if it came to a choice of dropping any large or significant part of the program such as the Extension Work or remaining on the present reduced salary scale, it would be better to choose the latter. If, however, by the accumulation of small savings enough could be found to permit any fraction of the salary restoration it was considered advisable to restore the salaries.

L.C. Mr. Townsend reported that an unfortunate amount of advice was given to students at the time of registration by the clerks in charge of the taking of cards, and of a nature prejudicial to certain courses and teachers. It was agreed that steps should be taken to remind such clerks that such advice at the time of registration was improper. The President sought the advice of the Council on ways and means of improving the intellectual and social atmosphere of some of the living organizations on the campus.

MEETING OF THE ADVISORY COUNCIL

December 17, 1935.

The Advisory Council met in called session on Tuesday, December 17, 1935, in President Boyer's office. He presented three matters for discussion:

1. In placing the tablets acknowledging the assistance of the Federal Government in erecting three new buildings on the campus, should they be inside, as in a hallway, or outside, as on a corner-stone? The majority opinion was that the tablets should be inside.

2. What attitude should the Administration take toward the protest of six students, representing a religious sect, against the required courses in physical education? The students object to being "confronted by false pictures of disease" which they find hard to eradicate from their minds. It was agreed that the University could not alter its requirement in this matter on the basis of such a protest.

3. The President suggested that the Council take steps to formulate the resolution to come before the Faculty at its next meeting on the establishment of a College of Liberal Arts. He appointed Dean Gilbert as Chairman of a committee with instructions to choose others to assist in the formulation. Dean Gilbert named Dean Bovard and Dr. Townsend as the other members of the Committee. All members were present.

H. G. TOWNSEND, Secretary.
