

6 January 2005_Motion 4
Undergraduate Council Action
UGC Requests Grade Distribution Comparison Data

The Undergraduate Council requests appropriate comparison data on undergraduate grade distributions at the eight OUS comparator institutions. Optimally, these data will go back historically in three five-year slices.

Also, we request internal data on (a) grade distributions in courses by unit (departments and Colleges) and (b) information on “outlying grade distribution” in courses (having enrollments>20).

Moved: Gilkey
Seconded: Mark Thoma

The motion passed unanimously.
