

**11 May 2000\_Motion 3**  
**Undergraduate Council Action**  
**Major, Minor, Certificate Definitions**

The following changes were suggested: remove the parenthetical explanation in the minimal requirements for the minor. Thus the minimal requirements now read:

*24 credits – 12 maximum lower division; 12 minimum upper division.  
Should be within discipline that already has a pre-existing major or  
sponsored by a department.*

The members voted to unanimously to adopt these definitions, and they will become part of next fall's Committee on Courses report which will be submitted to the senate for approval.
