Hi Lizz & Ron,

My only correction would be to change the first sentence as follows:

*Students who participate in University of Oregon sponsored study abroad programs can fulfill...*

Thank you!  
Cari

Please see the text I am including in the preliminary report below. I am posting the report this afternoon by 4:00pm. You can submit changes to me up until May 14, which is when the Senate approves the report. You can also make changes anytime after. That sounded open-ended!

Cheers, Lizz

Students who participate in a University of Oregon sponsored study abroad program can fulfill one Category C International Cultures-satisfying course through this participation in order to meet Multicultural Requirements.

The UO Foreign Study Programs Committee in collaboration with Study Abroad staff will identify which UO-sponsored programs will meet the *International Cultures* requirement, based on the following criteria:

- Students must be enrolled full-time and maintain satisfactory academic progress throughout their academic programs abroad.
- Approved study abroad programs must be a minimum of five weeks in length. If the program is between five and nine weeks in duration, it must have substantial cultural immersion, and meet at least two of the following three criteria:
  1. Include a homestay or immersion living experience
  2. Offer a language-intensive and/or culturally-immersive curriculum
  3. Provide an internship, service learning, or integrated work or volunteer program
- Programs of ten weeks or longer will automatically satisfy the *International Cultures* requirement
- A student who participates in a program that does not fit any of the criteria above has the option to petition the Academic Requirements Committee under their usual guidelines.

Dear Paul,

Attached you will find the motion approved the UGC to grant 1 IC course credit to certain UO sponsored overseas study programs based on certain criteria and evaluation processes. Thanks for including this in the upcoming curriculum report to the Senate.
