Incident Management Team (IMT)
COVID-19 2020

Governor’s Reopening Oregon Framework Overview

1. Gating Criteria: 3 components
   • Symptoms – declining numbers
   • Cases – declining numbers
   • Hospital capacity – regular procedures and adequate testing
2. Core State Preparedness: 3 components
   • Robust testing and contact tracing
   • Healthcare system capacity, including PPE and surge capacity
   • Plans for health and safety
3. Phased lifting of restrictions: 3 components
   • Phase 1: Opening of some businesses and small gatherings per Oregon Health Authority (OHA) guidance
   • Phase 2: Gatherings increase, per OHA guidance, non-essential travel can resume, schools and gyms can open under physical distancing
   • Phase 3: Mass gatherings size increases, worksites have unrestricted staffing, visits to nursing homes allowed, restaurants and bars can have more seating

*There is a minimum of 21 days between each phase. Then the gating criteria will be reviewed again before continuing to the next phase. Evaluation of the gating criteria is conducted by county health officials and the Oregon Health Authority.

Scenario Planning for Fall term 2020

**STEP 1**
April 23, 2020 > May 06, 2020
Conduct work session with each group below to develop scenarios, plans, and mitigation strategies in the following areas:
- Academic
- EMU/UCRC
- Instruction
- Athletics
- Research
- Travel
- Administration
- Study Abroad
- Housing
- Libraries
- UO-Portland
- OIMB

**STEP 2**
May 07, 2020 > June 15, 2020
Develop likely scenarios and operational plans to address each situation based on current information of the COVID-19 progression within Oregon and the West Coast. Ensure all UO planning efforts align with the Reopening Oregon: A Public Health Framework for Restarting Public Life and Business and OHA guidelines. Review and utilize promising practices established by CDC and other higher education institutions.

**STEP 3**
June 16, 2020 > September 15, 2020
Review, exercise, and refine fall operational plans. Adjust the planning scenario as needed and based on current OHA COVID-19 guidance for higher education. Ensure all plans align with local public health guidance.
